HIGH TEMP PLUS SEALING COMPOUND

APPLICATIONS

HT Plus is outstanding for sealing scored and marked surfaces on flange faces, gaskets, pipe joints, pump casings, turbine casings, heat exchangers, condensers, manway covers, and almost any similar application where process loss might be avoided.

EXTREME TEMPERATURE RANGES

HT Plus has a wide range of temperature applications ranging from -230°F to 1350°F and with its accelerated heat cure, HT Plus will fill most all of your steam and chemical applications

MINIMAL SURFACE PREPARATION

For maximum results, surfaces should be cleaned of all loose debris with wire brush or similar and it is recommended that a cleaner/degreaser be used.

EASILY APPLIED

After surface preparation is complete, HT Plus should be stirred and applied 1/8" to 3/16" thick to successfully seal damaged or scored surfaces

PACKAGING

HT Plus is available in 10 3 oz Tubes which weigh approximately 1 Lb, HT Plus will be shipped via buyers request. Same day delivery is available in certain areas.

PREVENTATIVE MAINTENANCE

In addition to sealing your damaged surfaces, HT Plus when used with a new gasket and proper torque sequence, greatly reduces process leakage.

GREAT SURFACE ADHESION

HT Plus with minimal surface preparation will adhere to the majority of all metals, ceramics, rubber, and most plastics.

EASILY REMOVED

HT Plus is easily removed after use in shut-down situations. This is accomplished with a wire brush and common solvents such as xylol, alcohol, acetone, or most any other solvent.

LONG SHELF LIFE

HT Plus has a shelf life of 24 months if stored in a cool, dry environment

TWENTY-FOUR HOUR TECHNICAL BACK-UP

HT Plus is manufactured and distributed by Colt Atlantic Services, Inc. which is a specialized engineering company that operates twenty-four hours a day, 365 days a year.
